JUNIOR WEB DEVELOPER

I am a passionate computer engineering student with hands-on experience in web development. I specialize in creating efficient and responsive websites using modern technologies. With a strong foundation in coding and problem-solving, I am eager to apply my skills to real-world projects and grow as a developer. I am highly motivated, quick to learn, and constantly striving to enhance both my technical and soft skills.

KEY COMPETENCIES

Front-end Development

Version Control

Selenium

Back-end Development

Linux OS

Algorithmic Thinking

Database Management

Wordpress

Team Collaboration

PROFESSIONAL EXPERIENCE

KD Web London
